CREATING ENGAGING ESPORTS ENVIRONMENTS

To meet the rise in Esports in education, TOP-TEC are proud to showcase our range of premium gaming workstations, designed to provide an engaging and immersive student Esports experience.

How can we help?

5-year warranty

UK designer & manufacturer

With over 65 years of manufacturing experience, we pride ourselves on our quality and dependable solutions, and make all of our products at our factory in Birmingham.

Protect your investment

Our solutions are built to last and manufactured in steel, securing and integrating all of your gaming equipment and cabling into tamper proof workstations.

Bespoke PC enclosures manufactured to your specific gaming PC

Complete gaming workstations

Each station is designed with your specific needs in mind, creating fit-for-purpose comfortable high performance workstations for gamers.

Inclusive for all gamers

Height adjustable and fully accessible options for inclusivity of all players and Equality Act compliance.

Visualise your Esports space!

We consult on the configuration of your space with 2D space planning alongside 3D visualisations.

OUR COMMUNITY IS GROWING

JOIN THE WINNING TEAM

TYPES OF ESPORTS SPACES

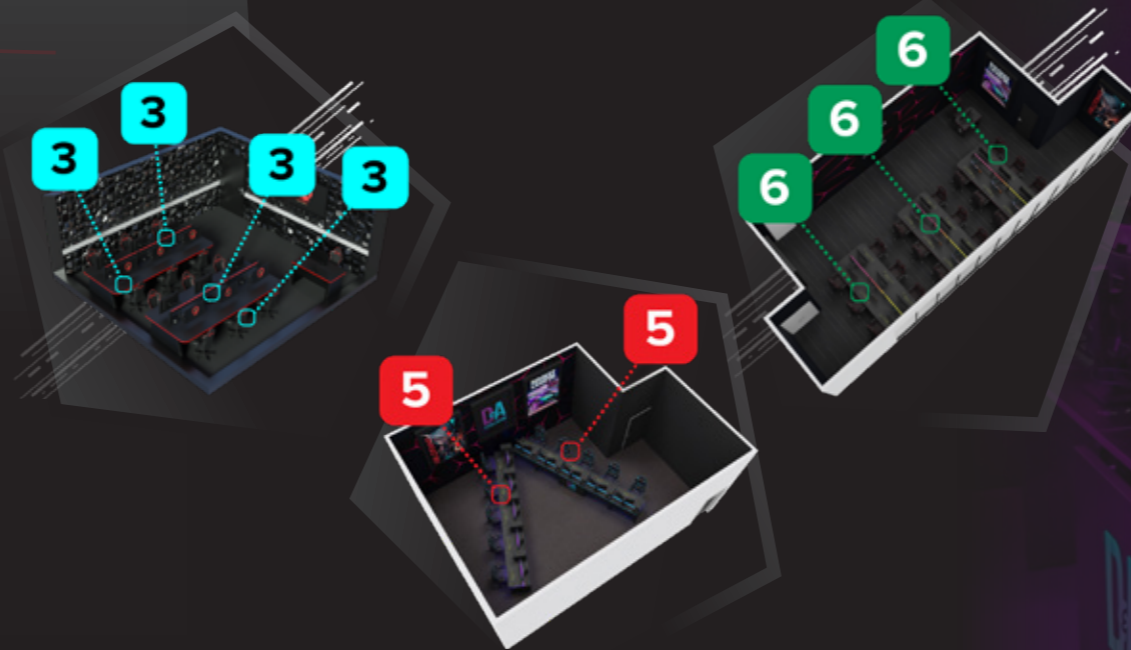

Booth Style Spaces

- » Privacy dividers, raised PC shelves and internal LED lighting create gaming booths that really engage your students.
- » Dividers between each workstation create a barrier to reduce distractions, improve focus and to stop screen sniping in competition settings!

Tournament Spaces

- » Competitive Esports Tournaments typically feature multiple teams fielding players in 1v1, 3v3, 5v5 or 6v6 formats.
- » To emphasise the competitive setting, workstations can be placed in a range of formations either on opposite sides of the room or directly in front of each other giving a battle-like feel to the space.

Teaching & Gaming Rooms

- » Since the introduction of the dedicated Pearson Esports BTEC, the teaching side of the course has become equally as important as the competitive gaming aspect.
- » Through careful planning we ensure that each gaming arena can also be utilised as an effective teaching and learning space.

ESPORTS IN EDUCATION

“More than half of 13 to 18-year-olds in the UK believe gaming is a viable career path and want schools to add it to the curriculum.”

- Which School Advisor (2022)

Give students the best experience possible by creating an exciting and engaging environment.

“There has been a huge rise in Esports around the globe and it is currently seen as the biggest growth sector within education.”

– Pearson (2023)

Improved facilities will appeal to the current generation and engage a broader demographic of students, helping you stand out from the crowd.

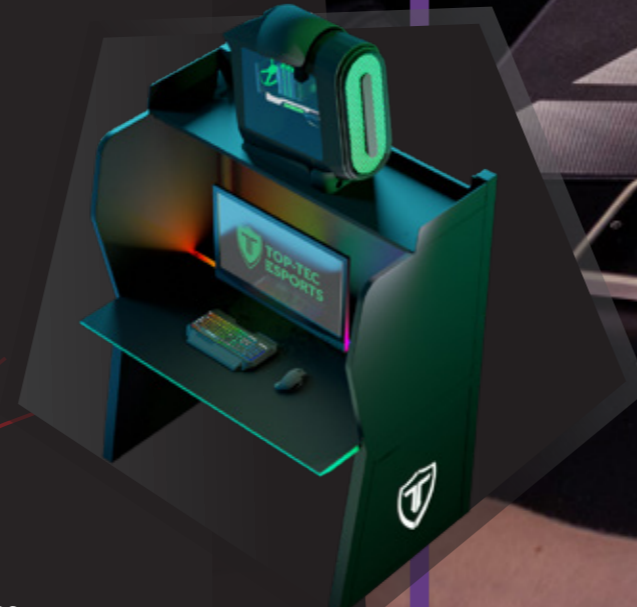

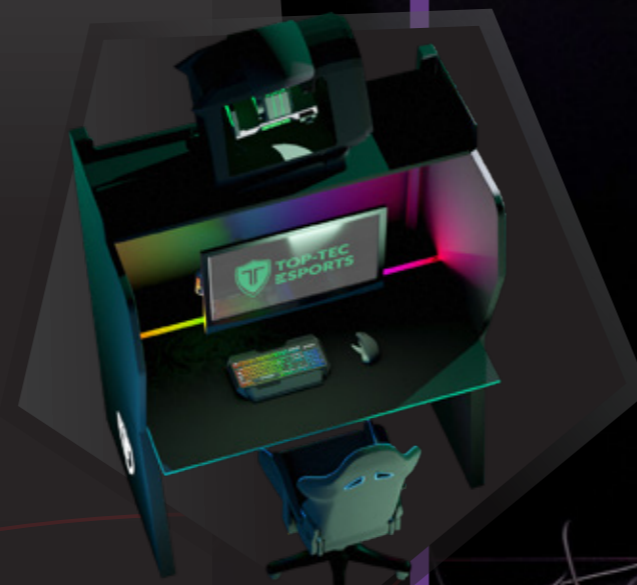

“79% of educational stakeholders in the UK believe Esports should be taught in schools.”

– DELL (2023)

Esports spaces can also provide a base for after school clubs and societies which help promote teamwork, social skills and communication between students.

DURHAM

NEBULA

RGB lighting

INCLUDED

» Standard

Can display one colour at a time with basic effects such as pulsing or colour cycling.

OPTION

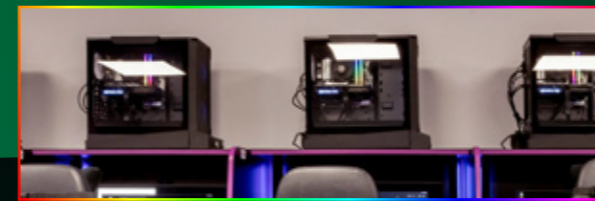

» Programmable

Display multiple colours in patterns such as rainbow & chasing lights etc. and synchronise with other compatible sources.

What colour would you like?

We offer a wide range of colours & finishes and will work closely with you to achieve your desired look!

INCLUDED

Custom PC clamp

Ensure your valuable PC equipment stays secure while keeping your gear and build at the forefront of your gaming setup.

Our modular designs allow you to create any length run you require!

NEBULA
ESPORTS STATION

NEBULA
ESPORTS BOOTH

INCLUDED

Sliding worktop

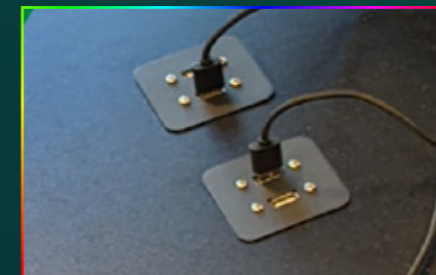

A cable slot and cable well allow you to tidily feed your peripheral cables for the perfect setup.

The front section of the worktop pulls forwards enough to feed excess cables down into the workstation frame during setup, this is then secured in the closed position before use.

INCLUDED

Easy worktop connectivity

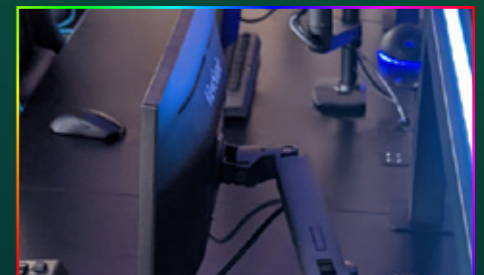

INCLUDED

Illuminated backlit logos

INCLUDED

Ergonomic monitor arm

NEBULA ESPORTS BOOTH

ABOUT

Designed specifically for Esports spaces our NEBULA ESPORTS BOOTH is our best in class gaming workstation and comes packed with premium features including custom illuminated branding, RGB lighting, worktop integrated USB 3.0 ports and fully integrated cable management.

Our booth features privacy dividers with raised PC shelves that not only create a barrier to screen sniping and other distractions but further engages your students in a professional gaming atmosphere.

Once paired with the included secure PC clamping bracket designed to fit your specific equipment you'll be more than ready to show off your hardware setup. Our modular NEBULA range allows you to combine multiple stations to create your perfect layout.

INCLUDED

- » Choice of standard paint & worktop finishes
